## CHILD CARE LOAN

Lower your monthly  
child care payments by 60%

## Making Quality Child Care Accessible To Families

High-quality child care is one of the best investments you can make for your children. However, the cost of that early child care and education is high, usually in the top five expenses for families. These expenses are typically incurred early in our careers, a unique juncture of lower income level and prime career advancement opportunity.

KidVantage is the first loan program designed to explicitly reduce the monthly cost of child care. Financing child care in a similar manner to purchasing a home, car, or college education, reduces the monthly burden of child care costs. It allows families to choose the best child care for them, while solving their immediate budget challenges without compromising the quality of care or career growth.

With KidVantage, you get extra time to pay (27 days), and you can choose to pay as little as **40%** of monthly care costs - and finance the rest over time at an interest rate typically lower than a credit card, **OR** pay your balance in full each month and pay no interest. It's your choice.
